Project: Contract DTRS57-99-D-00017, Task Order C0025

Subject: Draft Response Action Sampling and Analysis Plan
Appendix E to Draft Response Action Work Plan
U.S. EPA Region VIII, Libby Asbestos Project, Libby Montana

Dear Mr. McGuiggin:

CDM Federal Programs Corporation (CDM) is pleased to submit three copies of the draft response action sampling and analysis plan, which is Appendix E to the draft response action work plan (RAWP), dated July 1, 2003, for the subject site. This document describes the sampling and analysis procedures for sampling for air clearance, soil confirmation, personal breathing zone air, and air monitoring for removing vermiculite insulation, contaminated soils, and contaminated dust from residential, commercial, and other properties at the site. When we finalize the RAWP, we will include the final response action sampling and analysis as an appendix of that document. We are also submitting three copies of this plan to Jim Christiansen.

If you have any questions, please call me at (617) 452-6257.

Yours very truly,

Tim Wall
Deputy Program Manager
CDM Federal Programs Corporation
